

REACH Declaration

Registration, Evaluation, Authorization and restriction of Chemicals (REACH) is a regulation of the European Union, adopted to improve the protection of human health and the environment from the risks that can be posed by chemicals. It establishes procedures for collecting and assessing information on the properties and hazards of substances.

Microchip USA does not introduce any materials that change the REACH compliance of a component, nor is MUSA directly involved in the manufacturing, packaging, or handling of any product purchased by you, the customer.

Only the original manufacturer can provide REACH data of their components. It is the responsibility of any purchaser or end user within the European Union to be familiar with REACH regulations. Microchip USA does not operate in the EU and is therefore not bound by REACH regulations, MUSA will not be held responsible for any claims regarding REACH compliance of any given materials.

Microchip USA is an independent distributor, the above statement applies to all parts procured therein.
